

COMIN ASIA PTE. LTD has been established in Singapore since 1991 with French Capital. Present in Vietnam since 1992 operating thru its two representative offices in Hanoi and Hochiminh City, COMIN ASIA enjoys and expertise recognized in both local and regional infrastructure markets. The Comin Asia Group is active in Mekong sub-region: Vietnam, Cambodia, Laos, Thailand and Myanmar.

COMIN ASIA's business fields include:

- Power projects: power utilities (national, regional, local), power plants, dispatching centers..
- Power projects: Testing centre, power construction & transmission companies, power utilities, power plants...
- Industrial products: Cement plants, coal mine, paper plants, water utilities...

COMIN VIETNAM LTD, a Comin Asia owned Vietnamese registered Company, has been established since 1998 with its head office in Hanoi and two branches in Hochiminh City and Danang.

COMIN VIETNAM's engineering activities covers:

- Mechanical & electrical contracting: Industrial & tertiary sectors, pharmaceutical plants, garment factories, breweries, airport terminals, hospitals, shopping malls, office buildings, apartments, hotels...
- Mechanical and electrical maintenance and services: hotels & resorts, serviced apartments, embassies, office building, power plants...

The activities of Comin Asia and Comin Vietnam are complementary and enable us to offer a global performance from the initial planning of a project to its implementation and commissioning.

Quantity Surveyor

Quantity: 02

Hochiminh City, Vietnam

A. JOB DESCRIPTIONS

- The job will consist of taking the detailed Bill of Quantities (BOQ) from each shop drawing which have been prepared by our site engineers and building up a complete Bill of Quantities for a big project. This BOQ will be compared with the tender BOQ to assess the actual work against the estimated work.
- In addition monitoring orders placed to compare materials ordered against materials required to avoid last minute panic regarding lack of materials.
- The BOQ will also be used to prepare Interim Payment applications and cash flow projections.

B. REQUIREMENTS

- The person needed is an M&E Cost Engineer who has site experience with a contracting company. A QS could also do the job but if he/she has only worked in a QS company office doing take offs from drawings he/she may not be good enough.
